## Exclusions and Limitations

### **Pre-Existing Condition Limitation:**

Benefits will not be paid for any loss that is a Pre-Existing Condition, unless the Covered Person has satisfied the applicable Pre-Existing Condition Limitation Period. A Pre-Existing Condition is a condition, whether diagnosed or not, for which symptoms existed within the Pre-Existing Condition Limitation Period or for which medical advice or treatment was recommended or received from a physician within the same period. For plans including cancer coverage, benefits are not payable for any cancer diagnosed within the Pre-Existing Condition Limitation Period if the cancer is a pre-existing condition.

No Pre-Existing Condition limitation will be applied for Dependent Children who are born or adopted while the Named Insured is covered, and who are continuously covered from the date of birth or adoption. Credit toward the satisfaction of the Pre-Existing Condition Limitation Period will be given for any continuous time the Covered Person was covered under the pre-existing condition clause of previous coverage through another carrier if: (1) the previous coverage was similar to or exceeded coverage under the current plan; (2) the Covered Person was insured under the previous coverage at the time of enrollment in the current plan; and (3) the Covered Person was insured under the coverage provided under the current plan on the Certificate Effective Date. The Covered Person is responsible for furnishing proof of their previous coverage, to include type of coverage, length the previous coverage was in force and the date the previous coverage terminated.

The Pre-Existing Condition Limitation Period is dependent on the plan.
